From the mean streets of Sembia...

Erevis Cale might just seem like just another loyal butler for just another wealthy family in the merchant realm of Sembia, but he has always been a whole lot more than that. When the world itself is threatened, Erevis Cale takes it personally, and takes the fight all the way to the Plane of Shadow.

This massive trade paperback omnibus edition collects *Twilight Falling*, *Dawn of Night*, and *Midnight's Mask* into one book.
