

Finite Mathematics with Applications

TENTH EDITION

Finite Mathematics

with Applications

[Finite Mathematics with Applications 下载链接1](#)

著者:Margaret Lial

出版者:Addison Wesley

出版时间:2010-1-13

装帧:Hardcover

isbn:9780321645548

This book presents the content and applications in an accessible manner while maintaining an appropriate level of rigor. The authors proceed from familiar material to new, and from concrete examples to general rules and formulas. This edition retains its focus on real-world problem solving, but has been refreshed with a wealth of new

data in the examples and exercises—42% of the 452 examples are new or revised, and 31% of the 3,741 exercises are new or revised.
