This is an interesting and easy to read book that provides a wealth of information about leadership in a clear and practical manner. The author provides the key models

for leadership and much more. He has taken a unique approach in his extensive research for the title by spending speaking with people who have worked with successful leaders rather than basing by talking solely with the leaders themselves. The reader gains a practical understanding of what leadership is and how to incorporate it into their own situation. The book contains chapters covering the importance of a leader; breeding successful business; being a leader or having leadership ability; what makes a leader; vision with passion, values as a foundation to leading; love of people; nurturing champions; leadership overview, and how to measure and improve oneself. The book provides invaluable insights around the need for leaders to be able to adapt and change as situations do. Each Chapter has a quick and concise summary checklist to reinforce the key concepts and learning points. There is even an entire chapter devoted to the key questions to check oneself against the attributes of a leader. Insightful and easy to understand, the information and leadership models in this quick and easy to read title will be of benefit to anyone interested in leadership including HR professionals, students, leaders, managers, and interested individuals. There is something for just about everyone to take with them to help n their daily lives.
