# Oracle Built in Packages

[Oracle Built in Packages_下载链接1_](#)

著者:Steven Feuerstein

出版者:O'Reilly Media

出版时间:1998-5-15

装帧:Paperback

isbn:9781565923751

Oracle's built-in packages extend the power of the PL/SQL language in significant ways. This volume offers a comprehensive reference to all of Oracle's built-in packages, including the new packages available with Oracle 8. The diskette includes a tool that

provides easy access to the many files of source code and documentation developed by the authors.
