"Maybe It Should Have Been a Three-Iron" is the funny and poignant story of one man's search for sporting glory. Lawrence Donegan had the desire but lacked the talent to be a professional golfer, so he settled for the next best thing--caddying for Ross Drummond, a little-known pro on the European PGA tour, ranking 438th in the world. With self-deprecating humor, Donegan recounts the days and endless nights he spent on the road with Drummond as they existed on a string of meager tournament checks and chased the elusive "big win" much as Don Quixote and Sancho Panza chased windmills.
