We've buried 12 emerald-studded numberseach handmade and one of a kindin 12 holes across the United States. These treasures will belong to whoever digs them up first. The question: Where to dig? The only path to the answer: Solve the riddles of The Clock Without a Face !

THE BOOK

The call comes in from the shadowy Ternky Tower: 13 robberies, one on each floor, all the way up to the penthouse, where obnoxious importer Bevel Ternky has been relieved of the numbers garlanding the legendary Emerald Khroniker, his priceless, ancient clock. Readers must conduct their own investigations, scouring detailed

illustrations for hidden clues and knotty puzzles. All your answers can be found within this book: whodunit and how and where the real numbers are buried now.

THE NUMBERS

Twelve and only twelve emerald-bedeviled integers sleep somewhere in this nation's soil. If you can find them, they're yours to keep and only this book can tell you where they are. So read the story carefully, and examine the illustrations closely. The race is on!
