isbn:9780760337318

Showcasing the inherent beauty and engineering brilliance of F1 race cars, this book highlights these magnificent machines as the works of art they are. The specially commissioned studio photographs capture the mix of competition, creativity, aggression, human ingenuity, technological advances, and painstaking detail in each model shown. Coupled with a history and technical profile written by noted F1 journalist Stuart Codling, and commentary from award-winning designer Gordon Murray, this book is the ultimate homage to the ultimate in race cars.
