出版时间:2010-1-21

装帧:Loose Leaf

isbn:9780205739226

By introducing the themes of "Changes, Choices and Constraints" when presenting the basic concepts, theory, research and statistics about marriages and families, Benokraitis discusses how contemporary "changes" in families and their structure impact the "choices" students actually have, and how society can "constrain" their

marriages, families and relationships. Through this approach, students are better able to understand what the research and statistics mean "for themselves"
