isbn:9780873648523

In this long-awaited sequel to Dragon's Touch, Master Hei Long drives home the point that the most dependable defence is reliance on one's own ability to take out an opponent in hand-to-hand combat. He out-lines 20 pressure points that are crippling or even lethal when used as targets of counterstrikes, a study of hand weapon posture and 50-plus applications for anatomical targets.
