著者:Thomas Lovell Beddoes

出版者:Carcanet Press Ltd.

出版时间:2006-7-1

装帧:Paperback

isbn:9781857545999

Initially conceived as a satirical tragedy unmasking the terror of death, this book was the counterpart of Beddow's anatomical research. This edition presents the jest book in its early form, as Beddow intended to publish it in 1829. The center of Beddow's achievement, this pastiche of Renaissance tragedy is replete with treachery, murder, sorcery, and haunting and is the extravagant expression of the poet's lifelong obsession with mortality and immortality.
