《江南禅寺(英文版)》内容简介：The building of the Buddhist monastery is an important component of Chinese ancient architectural culture. Its architectural location, architectural layout, architectural method and architectural decoration all bear the deep stamp of Chinese traditional culture and ideology. This book, combining architecture with religion and culture, displays the existence and characteristics of the Buddhist monastery on the background of the development history of Chan, and then represents the whole look of the architecture and culture of the Buddhist monastery by a detailed explanation of buildings, religious ritual implements, associated contents and etc. This book is especially for those who are interested in Chinese traditional culture, Chinese ancient architecture and design of the Buddhist building, and for the tourists as well.
