Warren Buffet and George Soros both started with nothing and made billion-dollar fortunes solely by investing. At first glance they seem to have nothing in common: Buffett buys bargain-priced stocks and businesses for cash; and Soros is renowned for his highly-leveraged, quick-footed bets in the currency markets. So what do they have in common? As Mark Tier demonstrates in "The Winning Investment Habits of Warren Buffet and George Soros", they practice exactly the same mental habits and strategies when investing, and these tactics have since been used successfully by all other traders and investors that Tier has worked with - without exception. By sharing 23 key investment habits in this ground-breaking book, the author provides you with the rare opportunity to understand the logic behind them and make them your own.
