A new edition of a pioneering materialist treatise

Exploring the way that production affects the social issues of class division and family, Engels develops his arguments on private property and its relationship to the subjugation of women. Engels then analyzes in detail the rise of the territorial state, ultimately extending his theory further to consider how class and exploitation arose out of the division of labor. One of Engels's most vital works, this book was groundbreaking when it appeared in 1884 in that it emphasized development in terms of power and control over resources, rather than psychological evolution.

## 评论

读了第一第二和最后两章。马恩真是诡辩的一把好手。读完了这个再读波伏娃对恩格斯私有制的批判真是酸爽。

我要咆哮了呜呜呜 看书看得累死了

读到恩格斯对于婚姻的美好想象：基于纯粹的爱情，不禁笑了。恩格斯同志真是浪漫啊

Families. Spring 2012. w/ Wolfgang Neuber. Engels and Marx are truly talented....materialist to the extremist.

Critical theory of sexuality

一位蜜汁男子对爱情的向往。。。

有的地方太用常识说话了，比如关于婚姻制。

seems like an utopia....anyway it still points out some key elements that capitalism transfers, and the origin and function of the states.

the modern nuclear family grew out of private property and therefore follow the logic of private property.
