From the moonlight poignancy of "The Last Sight of Hobbiton" and the elegant grandeur of "Rivendell" to the lightning-ravaged desolation of "Across Gorgoroth," the superlative collection of images in this diary depicts a breathtaking journey across Middle-earth. Each scene is taken from Tolkien's classic masterpieces "The Lord of the Rings," "The Hobbit," and "Unfinished Tales" and accompanied by selections from the texts. A selection of color sketches and alternative versions of the finished paintings from acclaimed artist Ted Naismith are also included along with quotes and facts about Tolkien and his work.
