Lessons from the Vineyard starts with Jesus' statement in the first verse of John 15. Each of us has our own vineyard to care for. As we explore the new teachings that John opens to us, we have a changed concept of the inter-relation between believers in the church. The novel of the early Christian life of John Mark paints the scene around John 15. As that tragic night before the Passover unfolded, John Mark's footsteps echo through the life of every believer in Jesus Christ.
