Although W.E.B. Du Bois was one of the most significant educational thinkers of the twentieth century, many are still unaware of his relevance in this field. *Du Bois on Education* corrects this oversight by collecting Du Bois's major writings on education in one volume. Eugene F. Provenzo, Jr. has given each of the twenty-two selections short introductions placing the pieces in their historical and critical contexts. Together these selections powerfully demonstrate Du Bois's commitment to racial educational equality and his contributions to educational thought.
