SPIES ... TREASON ... LIBERTY!

A walk in the Black Forest for twins Jacob and Erin turns into an adventure through time when they meet Shadow, a red fox with an unusual set of talents. They are welcomed to his underground laboratory, Hora Cella, and witness the power of Nikola Tesla's time travel device, the Wall of Light.

On their first journey through the Wall of Light, they travel to Boston in 1775, to help Paul Revere and the Sons of Liberty spread the word that British Redcoats are on the march. Shadow has discovered seven gaps in the story of Paul Revere's midnight ride. If those gaps are not filled, the American Revolution may never be fought, and liberty as we know it will cease to exist.

Travel through time with them and follow Paul Revere, William Dawes, and Samuel Prescott, ordinary men who choose to act for the cause of liberty. Meet Dr. Joseph Warren, one of the leaders of the Sons of Liberty, as he sets the famous ride in motion. Watch Robert Newman and John Pulling as they attempt to place signal lanterns in the steeple of the Old North Church. But, look out for Pratt! If he has his way, you could become trapped in a time when King George III rules, and there is no liberty and justice for all.

As a Superintendent of Schools, I am very pleased with the caliber of writing that Shadow Fox provides for elementary age students. The author and authoress have provided great reading for students, and, in addition, have been able to create excellent teaching tools to include maps, discussion sheets and sample lesson plans for teachers to use in the classroom. This father and daughter have created a phenomenal story, book, and tool for learning for all children! Congratulations on a job magnificently done!

Dr. Mark Hatchell, Superintendent of Academy School District 20

My kids loved this book. It was fast-paced and exciting. As a homeschool family there was an added benefit of this contributing to their schooling. We had so many conversations about the real events surrounding the story that the teaching flowed naturally from the kids interest. What a great story, and we are looking forward to the next one.
