What would happen if an entire population decided to cast a blank vote in their town elections? In this new novel, a policeman and the woman who was able to maintain her sight in the novel *Blindness*, are samples of the moral heights that these anonymous citizens are able to reach when they decide to exert their freedom. Saramago, a writer who has become the awakening conscience of a time blinded by

the mechanisms of power, sends out an alert: "There may be a day when we will have to ask, Who has signed this in my name?" That day may very well be today.
