The present time was one of the themes of favorite reflection of Ortega and Gasset; its perspective al respect, as well as the reflections on the sensibility of the man of the

20th century front al 19th century are the main themes of these conferences, in which the author revises the paradigm of the history as history of the ideas, especially in the plan of the beliefs. The two courses that contains the book remained unpublished to the edition of Jose Luis Molinuevo, in 1996, even when the own Ortega availed oneself of itself them to write other texts.
