Saddle on up and get ready for the silliest time of your life. A Fistful of Hollers (or how the west got silly) is jam-packed full of silly short stories, jokes, limericks and a belly full of laughs. With 162 pages of fun to choose from, in bite-sized chunks, this book strives to bring a smile to your face, all with a western theme. Or as Timothy Sayell says in his offering called Lonesome Rider:

The sun was shining on the sage,
The rocks, and on the sand.
It did its very best, indeed,
To brighten up the land,
From the mountains, 'cross the prairies
To the streams where gold was panned.
