Although different and unrelated, the stories share the common thread that life is not always what it appears to be. It is very much like an artist searching for that elusive portrayal of beauty. It often exists only in the eye of the beholder. The stories are mostly satirical reminding the reader that life's adventures rarely have predictable

The author spends most of his time on Florida's Amelia Island. He also maintains a rural residence close to his children just outside of Wheeling, West Virginia near the town of Dallas.
