HUMAN GODS, DARK MATTER, GALACTIC LOVE. More than Fiction. EVERYTHING IS POSSIBLE...WHEN MAN IS GOD. Chris Mathews puts his life on hold in the Eighth millennia and joins Professor Andrew Reichstein and Hailey Missentra on a ride to a slipstream at the edge of a black hole. They plan exiting the stream a few seconds into the future to prove that time 'emergence' is theoretically possible. However, they emerge into a time beyond their reckoning and find their worlds changed forever. Chris, in particular, must decide whether to travel even farther into the future, into an infinite future, where man becomes God, and seek the missing information that will bring his loved one back to life. But not all is as it seems and he starts questioning if the futuristic world's enigmatic Priest stands to benefit more than he will from his efforts. And what does this mean to his friends and their survival?...WHO CAN YOU TRUST IN THE FUTURE? DE=O
