What does it mean to love a vampire? Does it mean nights of pleasure, tempered with sweet pain?

There is no more sensuous figure in dark fantasy than the vampire. Whether a powerful seductress who harnesses the night to her will or a mysterious and handsome demon lover who demands surrender in exchange for passion, Bites of Passion presents many incarnations of the ancient myth. Eight top authors explore themes of immortal love, the lust for blood (and other things), and the eternal struggle between light and dark. Sink your teeth into these stories of "the hunger," of need that can only be slaked after sundown, of the rush of blood and the scent of skin.

Contributing authors: Jessi Holhart, Eric Del Carlo, Ed Fuqua, Rakella Valencia, F.R.R. Mallory, A. N. Cortez, A. M. Hartnett, and Thomas Marcinko.
