With its revolutionary fly-by-wire technology, the C-500 had become the freight airframe of choice. Until a routine delivery goes horribly wrong. Falling like a stone from six miles up, a brand new C-500 crashes in central France, killing two pilots aboard. When French officials take over this highly public investigation, they call in the best there is: they call Frank 'Jammer' Davis. A retired U.S. Air Force fighter pilot, Davis is part of the NTSB's 'go-team.' With a reputation for getting things done-and for steamrolling anyone who gets in his way-Davis starts to dig. But just as Davis starts his investigation, news of the crash is overshadowed by a more spectacular disaster: suicide bombers attack oil refineries worldwide, sending governments and financial markets into a tailspin. A relentless Davis keeps investigating, but uncovering the cause of the crash, and its terrifying connection to this worldwide disaster, reveals a conspiracy of unthinkable proportions-a conspiracy he might not be able to stop. Jammer Davis won't stop until he gets answers-or until somebody stops him from getting answers.
