The wall of time has fallen and the Gods are free to ravage the world. The few that know of their escape into mortal lands are under the control of the malevolent Husk.

Stella, a queen in hiding, makes a deal with the Undying Man even though she knows his agenda comes first. Noetos seeks revenge for the deaths of his loved ones, not yet realizing the enemy is closer than even he can imagine. And the unconventional cosmographer, Lenares, is the only one with the power to prevent the Gods from destroying the world - if only the others would believe her.

The queen, the fisherman, and the cosmographer must travel to Andratan to confront Husk. But whether they can break free of his hold on them, and defeat the Gods, is another matter entirely.
