"The Big Short" tells a story of spectacular, epic folly. It has taken the world's greatest financial meltdown to bring Michael Lewis back to the subject that made him famous. His international bestseller "Liar's Poker" exposed the greed and carnage of the City and Wall Street in the 1980s; he wrote it as a cautionary tale, but people seem to have read it as a how-to guide. Now, he wants to settle accounts. In this visceral tour to the heart of the financial system, Michael Lewis takes us around the globe and back decades to trace the origins of the current crisis. He meets the people who saw it coming, the people who were asleep at the wheel and the people who were actively driving us all off cliff. How could we have all been so deluded for quite so long? Where did it all start? Was it systemic? Was it avoidable? And who the hell can we blame? Michael Lewis has the answers. No one is better qualified to get to the heart of this labyrinthine story. And no one can make it such an enjoyable ride along the way.
