Munich 1956. The war is over but not forgotten. The West German economic miracle is underway, and American investors are looking for opportunities, but some companies have skeletons in the closet. When Will Briggs agrees to investigate a German textile company for an American friend, he half-knows how deep and how murky the water might be. But he is intrigued by the challenge, and he could use the money to fund his own historical research. Traveling first to Switzerland to investigate what he thinks may be tax fraud, he becomes involved with Mechtild, the mercurial wife of the boss, Kaspar Leinberger. Discovered eavesdropping on a suspicious conversation about Nazi gold, he is pursued to Italy where war crimes replace tax fraud as the focus of his quest . . . Raising eternal questions about historical truth, witch hunts, and the use of evidence, *A Grasp of Kaspar* is an engrossing thriller reminiscent of John Buchan, Erskine Childers, and John le Carré.
