The #1 New York Times bestselling author tells the story of romance lost and rediscovered-and the wrenching decision one woman must make between loyalty and love.

Every person's story has a beginning, middle and end, but the path that leads from one stage of life to the next is rarely predictable. Renee's journey begins when she is a carefree college student, studying in Italy with her best friend, Audrey. During that

idyllic summer abroad, Renee meets a handsome local, and falls deeply in love. But like all summer romances, the affair comes to an end when she returns to North Carolina. Back home, Renee fulfills everyone's expectations - including her own - by marrying her longtime college boyfriend. Over the next two decades, she raises a family and lives a predictable, if in some ways unfulfilling life. When Audrey announces that she's dying of cancer, Renee drops everything to spend Audrey's last days by her side, unaware that her unconventional best friend still has a few surprises up her sleeve . . . surprises that will turn Renee's world upside down, and offer her a chance to re-live the choices of her past in a way she never dreamed possible.

评论

这本是我看的NS最差的一本...故事很平淡,几乎没有高潮.有点像写的不怎么样的侦探惊悚小说,但是NS真的不是写这类的料.
最后还出现了灵异事件,Katie的邻居Jo竟然是Alex的前妻....不可思议.
只能给个还行的评价了.我一度想放弃...用了4天的时间看完,之前NS的书基本2天就可以看完...可见不能吸引人.
