If you run out of vampires to destroy at home, there's always work overseas... Hollywood stuntwoman-turned-vampire-hunter Dawn Madison, along with her comrades, managed to wipe out the Los Angeles Vampire Underground-and uncovered not only her own dark family heritage but also a terrible truth about the man she loves. Now she's determined to find the next vampire lair, hoping it will help her to make more sense out of her life. When a new Underground is found in England, Dawn and a vampire-fighting team are dispatched to carry the fight to the enemy in London. Dawn knows by now how deceiving appearances can be-and she is about to find out that it's not only the beautiful people of Hollywood who are willing to bargain with evil...
