Of all the P.I. offices in all the world... Why did Lizzie Porter have to waltz into his? Wary loner Sam Travers always had a soft spot for Lizzie--and now she's grown up, with the curves to prove it. But to move on his old partner's daughter would be oh-so-wrong.... Except that Lizzie won't take no for an answer. She's discovered that she might have a half sister. And she's not going to let anyone stop her on her search--even Sam! The plot thickens when someone takes a shot at Lizzie, and Sam volunteers to move in with her--just to protect her, of course. And as they puzzle out the truth, he wonders just when he'll dare move out....
