Come along for adventure in a time when the world was new and death was unknown. As his kingdom quickly becomes crowded by people, plants, and animals who live forever, young Prince Emir must discover the answers to some most perplexing questions. At the behest of his royal parents, Emir undertakes a difficult journey to discover death, understand the reasons for the seasons, and even figure out what life is all about. A large order for such a small prince, but Emir is not alone in his quest. Aided by the muses of Conscience and Inspiration, our young hero finally understands that all living things must have their own seasons of birth, growth and returning to the earth. Jane Roberts touched millions with her "Seth" books. Now this same gentle heart reminds spirits young and old to honor the cycle of life, the seasons, and world diversity with this charming fairy tale for all ages.

小時候看過中文版的
"小王子艾米爾生命之旅"，豆版沒這條目，我去建了。真的很有啟發性呢！
