What's really going on? Who's really in charge? You have NO. F***KING. IDEA.

A frighteningly persuasive, high-tech fable, this novel follows the lives of four narrators living in an alternative futuristic Cape Town, South Africa. An art-school dropout, and AIDS baby, a tech-activist and an RPG-obsessed blogger live in a world where your online identity is at least as important as your physical one. Getting disconnected is a punishment worse than imprisonment, but someone's got to stand up to Government Inc. - whatever the cost. Taking hedonistic trends in society to their ultimate conclusions, this tale paints anything but a forecasted utopia, satirically undermining the reified idea of progress as society's white knight.
