Following the tragic death of her mother, novelist Debra Benson experiences severe writer's block. Her friend Ashley persuades her to seek rest and solace in the beautiful Adirondack Mountains, convincing her that the seclusion and peace will take her mind off her situation and allow her to finish her novel. While there, Debra meets David Kimble, an undercover FBI agent posing as a forest ranger, who has been sent to keep an eye on Debra. The two begin spending time together, and David realizes that Debra is not the evil woman he has been led to believe she was. Soon the couple can no longer deny their growing attraction for each other and realize they are in love. But when Debra finds out that the father she never knew is the probable next president of the United States and he wants her killed to protect his reputation, she and David find themselves on a perilous journey of life and death, a journey that stretches from New York to the political jungle of Washington DC. Equal parts suspense, deception, and romance, Joel Howard's Bloodline and Betrayal will keep you guessing with more twists and turns than a winding country road. Race against the clock with Debra and David on this thrilling ride as they fight for their lives upon encountering Bloodline and Betrayal.
