Despite the compact size of the atlas, each mapping page folds out to reveal a large area of mapping at a scale of 3.2 miles to 1 inch. The handy spiral binding means that the atlas lies flat and can be folded back on itself for ease of use. The atlas includes a route planning section including maps for long distance route planning, motorway services information, and a handy distance calculator chart; 20 urban area approach maps at 1 mile to 1 inch which clearly show the best routes through and into the busiest built-up-areas; 64 street maps focused on town centers showing places of interest, car park locations, and one-way streets; fully updated fixed speed camera sites with the roads covered by average-speed cameras clearly highlighted; a map showing the risk rating of Britain's major roads, courtesy of the Road Safety Foundation; World Heritage Sites located with contact details and brief descriptions; more than 30 categories of places of interest including castles, theme parks, sports venues, universities, mountain bike trails, and surfing beaches; and the top 1,000 most visited places of interest are indexed with full postcodes to aid integration with satellite navigation systems.
