The first truly student-oriented text on this subject, "International Relations: Power and Purpose in Global Affairs, Brief, International Edition", is a new introduction to the study of world politics. Paul d'Anieri's cohesive pedagogical framework presents the study of international politics as a series of intellectual puzzles and policy problems

that help students make the connection between power and purpose, continuity and change, emerging problems and traditional ones. This brief edition allows students to use d'Anieri's framework in a manageable way.
