isbn:9780007257614

Extending from Epping Forest in the north to Chessington in the south and from Heathrow in the west to Bexley in the east, this handy little atlas features a huge amount of detail, without compromising the clarity. The scale is 3.17 inches to 1 mile, while the central area is 6.3 inches to 1 mile. There is a full index to places, street names, and places of interest as well as a theaters and cinemas map and a shopping map. Other features include color-coded primary routes and public buildings; street markets and pedestrian streets, borough boundaries, and postal district boundaries and codes.
