Lieutenant Jonathan Stride is quietly recovering from injuries sustained on his latest

case when a rich doctor's baby is kidnapped and his peace is shattered. As suspicion builds that the doctor may have staged the baby's disappearance, the relationship between the doctor and his wife and neighbors begins to disintegrate. Stride and his lover and partner Serena find themselves on opposite sides of the case, with Stride pursuing evidence that incriminates the doctor and Serena trying to prove that the baby really was abducted. Meanwhile, Stride's colleague Maggie and her headstrong young partner are tracking a man responsible for a violent crime wave in the rural areas of Duluth. There seems to be no connection between the cases until a victim with ties to the doctor's case turns up murdered in the signature style of the Duluth killer.
