Who's To Say What Shape Is Normal... Join three voluptuous women as they open their hearts and minds to possibilities beyond the normal...and straight into the paranormal. Who's Your Alpha? by "Vicky Burkholder" Sunny Clark always thought she was the only shape shifter in the town where she grew up. But when she returns for her high school reunion, she is shocked to find that nearly the whole town can turn into one thing or another. Including her teen crush, David Maxwell. After a challenge for position in the pack, where Sunny defeats the town's Alpha female, the real question becomes does David only want the new Alpha female, or has he always wanted Sunny just as she is? Out of the Storm by "Misty Simon" Sarah James' quiet, almost solitary life changes when she rescues a wet, bedraggled cat out of a raging storm. But he always seems to disappear without explanation, only to return at the oddest times. Is he really lost, or does he have a secret life outside her apartment walls? Trenton Cutlass has been forced to roam ever since he was cursed into the form of a fat, tabby cat after dusk. No one has ever taken him in...until Sarah. Suddenly, breaking the curse is more important than ever, or he'll have to abandon the lovely Sarah forever. Sheltered by "Victoria Smith" Drugged and lost after escaping a deranged kidnapper, Dane Masters is stuck as his hereditary alternate form. While wandering the streets on four wobbly paws, he's taken in by vet tech Izzy Burnett. Once he has regained his strength, and his memories, Dane realizes he has found his predestined mate. But will he have time to convince Izzy before the kidnapper turns killer?
