Part graphic novel, part journal, this tale follows one young man's embarrassing and hilarious journey to literary awareness. Jonny lives and works in a suburban strip mall but dreams of being a writer. He already possesses most of the elements needed to realize his dream--a supportive girlfriend, an active imagination, and an abundance of subject matter--but nonetheless finds his literary pursuits impeded by his own relentless stupidity. From big-box capitalism to growing up in the 21st century, Jonny's irreverent musings are captivating and deceptively wise.

这本书都可以找到。老爸从澳洲回来带的礼物，没想到是一部浮夸西皮的故事书。人生中第一本英文小说吧，情节略重口，图文结合的形式还挺有趣的。文章的核心大概是midlife crisis吧，看起来又像是一部自传。
