On a September evening in 1931, John and Jack, two of the Caretakers of the Imaginarium Geographica, watch their friend Hugo disappear through a door into time, and the world begins to change around them. Dark and terrible beasts roam throughout England, and to restore order the boys must use a time travel device left by Jules Verne to race through history itself. John and Jack find that the only way to save their friend and stop the chaos destroying the world is to solve a 2,000-year-old
