Illustration is one of today's fastest growing creative disciplines. Its versatility has made it a key visual element in fashion, lifestyle, editorial design, and advertising. Illustrations depict and enrich content in magazines and other publications. They help advertisers to address target audiences more precisely. Illustration appears more and

more frequently in fashion and packaging design, and the combination of illustration and photography has resulted in a new, more complex visual language. The Beautiful presents the work of today's 100 trendiest and most promising illustrators in the areas of fashion, lifestyle, editorial design, and commercial illustration.
