Archiworld Co.,LTD. has being published monthly Archiworld,Landscape World and Interior World,and we have been published Architecture Competition Annual for 11

years.

Landscape Architecture competition is a method of Landscape Architecture which is generally conducted of the world. Also, it has a great influence on development of recent Landscape Architecture as well as current. We publish an volume with various data on these Landscape Architecture. The motto of the book is to promote the value of the data as it forms the basis of comparing and analyzing awarded design work and all applied design works with originality. It also provides a public measure to judge the level of contemporary Landscape Architectures.
