isbn:9780462099682

Over the past 20 years, the world has undergone nothing less than a global business revolution, driven by the force of capitalism. Yet capitalism is a two-edged sword. It has propelled forward human ingenuity and creativity to a new peak. However, it threatens fundamentally the very existence of the human species.

作者介绍:

Peter Nolan (recently awarded CBE) is an eminent professor at Jesus College, Cambridge University. He also holds the Sinyi Chair in the Judge Business School and is visiting professor at Copenhagen Business School. He is the author of China and the Global Economy and advisor to government ministers and CEOs.
