The extraordinary "One Day in the Life of Ivan Denisovich" is one of the most significant and outspoken literary documents ever to come out of Soviet Russia. A brutal depiction of life in a Stalinist camp and a moving tribute to man's triumph of will over relentless dehumanization, this is Alexander Solzhenitsyn's first novel to win international acclaim. The Soviet Union eventually revoked the author's citizenship and had him deported, and he only returned recently after the collapse of the U.S.S.R.
