This course examines one of the greatest conflicts in human history, World War II. Between 1937 and 1945, 55 million people perished. It was a series of interrelated conflicts; no continent was left untouched, no ocean or sea unaffected. The war led to the eclipse of European power and the emergence of the United States and the Soviet Union as global superpowers.

作者介绍:

THOMAS CHILDERS is the Sheldon and Lucy Hackney Professor of History at the University of Pennsylvania. He is the author of five previous books on the Third Reich and World War II, most recently, *Wings of Morning* and *In the Shadows of War*.
