Richard Hugo was that rare phenomenon—a distinguished poet who was also an inspiring teacher. *The Triggering Town* is his classic collection of lectures, essays and reflections "directed toward helping with that silly, absurd, maddening, futile, enormously rewarding activity: writing poems". The beginning poet, the mature writer and the lover of literature will all benefit from Hugo's playful and profound insights into literary creation.

great book. honest, straight forward, at times with a personal quirk; one of the best

books i read in the past several years
