出版时间:2010-9-16

装帧:Hardcover

isbn:9781554077427

A celebration of 200 of the world's indigenous peoples.

In words and beautiful photographs, Tribe explores the cultures, beliefs and societal patterns of human identity and belonging. Author Piers Gibbon describes some of the

last existing tribal communities and shows them as intimate groups that are part of the wider world. We see their homes, celebrations and all that makes each tribe a unique thread in the fabric of humanity.

This comprehensive book details:

Life stages from birth to death

Learning, histories and how tribes interpret the world around them

Belief systems

Medicine, shamanism, prayer

Survival skills

Coming of age ceremonies

Dress and adornment

Sex, gender and relationships

Money, trade and wealth

Law and order

Leisure, sport, music and art

Outside contact now and in the past

Tribal futures

The book also corrects the notion that an aboriginal tribe is invariably cut off from the rest of the world. The author's personal interviews with the world's leading anthropologists explore the future of these tribes and examine what unmet need fuels our endless fascination with tribal societies.

Tribe is an inspiring, eye-opening and sometimes poignant exploration of some of the least known and most endangered peoples of the world.

作者介绍:

Piers Gibbon's human sciences thesis at Oxford became the basis for a documentary, *Jungle Trip*, which followed him to the Amazon, where he studied with shamans and took part in tribal activities of the Iquitos, Pucallpa and Matsigenka tribes. He presented the six-part TV series *Headshrinkers of the Amazon* and has narrated more than 200 hours of documentary programming for Discovery Channel, Animal Planet, the BBC and National Geographic Channel.
