Love it or loathe it, pornography is as old as human civilization itself. Ancient humans were drawing porn on their cave walls long before it flourished under the Greeks and Romans. With the age of the Internet, it has now reached epic proportions. This anthology takes the ever-controversial discussion of pornography out of solely academic circles; it expands the questions about porn that academics might tackle and opens the conversation to those who know it best – the creators and users of porn. Together, they address issues such as:

- \* Is a porn actor's life “worse off” by virtue of his or her profession?
- \* Why are men more willing to accept the authenticity of “porngasms” ?
- \* What is the voyeuristic appeal of watching celebrity sex tapes?
- \* And, what is wrong with pornography?

Entertaining and scholarly, Porn – Philosophy for Everyone offers a titillating, tantalizing glimpse into the world of porn.

书评

这本书讲的是“成人电影”。书中对各类成人电影有很多非常露骨的描绘，应该说让人“大开眼界”。也学会了不少“业内”术语。哈哈。但这本书绝不色情，而是非常严谨地从哲学心理学认知学角度，分析成人电影中体现出的深刻问题。非常有趣的一本书。书从著名的柏拉图Allegory of...
