This title is written by Mike Johnson, Alex Katsnelson, Matthew Pitts and Danielle DiSpaltro. It includes art by Tom Mandrake and Simon Coleby. The hit show from J.J. Abrams comes to comics in this collection of the 6-issue miniseries! FBI Agent Olivia Dunham, brilliant scientist Walter Bishop and his estranged son Peter investigate the world of "fringe science" (telepathy, time travel, etc.) following suspicions that the large scientific research company, Massive Dynamic, is experimenting on the general public.
