" Zombie Capitalism is both timely and hugely valuable. . . . This book is an essential read."— Socialist Review While for most mainstream commentators the financial crisis that opened in 2007 signaled the failure of regulation and accountability, Chris Harman describes the ongoing economic turmoil as a byproduct of capitalism's inability to consider anything but the bottom line. Chris Harman (1942–2009) was the editor of International Socialism and the author of numerous books, including A People's History of the World (Verso Books).
